

Airl is a important part in our community. It provides encouraging music and we need it to continue playing. During the times in life when it gets hard, Airl is a radio station that always has a positive outlook on life and reminds us that God has not forsaken us. If Airl does not continue playing, our community would never recieve the message of truth. It's not just a radio station. Airl touches many people's lives and offers refuge in this crazy world.
